Restorative Implant Dentistry Options for the Edentulous Patient

PROGRAM DESCRIPTION
Participants of this program will learn how to incorporate implant overdentures supported by LOCATOR® attachments into their practice with predictability and confidence. Participants will discuss the importance of patient selection criteria and surgical planning considerations, with regard to the ideal aesthetic result. The program will demonstrate the advantages of the LOCATOR® System for removable partial dentures or overdentures.

This program will also include an overview and comparison of conventional denture treatment, LOCATOR® Implant Attachments, and hybrid and implant-supported fixed bridges, focusing on patient benefits.

LEARNING OBJECTIVES
- Understand features and benefits of the LOCATOR® Implant Attachment System
- Understand the laboratory process of fabricating a LOCATOR® retained overdenture
- Perform a chairside pick-up technique using LOCATOR® tools and components
- Discuss the current treatment options available for partially and fully edentulous dental patients

Robert Vogel, DDS

Dr. Robert Vogel graduated from the Columbia University School of Dental and Oral Surgery in New York City, New York. Upon graduation, he completed a combined residency program in Miami, Florida, at Jackson Memorial Hospital, Mount Sinai Medical Center and Miami Children's Hospital. He maintains a full-time private practice in implant prosthodontics and reconstructive dentistry, located in Palm Beach Gardens, Florida.

Dr. Vogel works closely as a team member with several specialists providing implant-based comprehensive treatment, as well as conducting clinical trials and providing clinical advice to the dental attachment and implant fields. Dr. Vogel has developed and collaborated on the development of several prosthetic components and techniques currently in use in implant dentistry. He lectures internationally on implant dentistry, focusing on simplification, confidence and predictability of implant prosthetics through ideal treatment planning and team interaction. Dr. Vogel continues to publish scientific articles on implant dentistry, and is a Fellow of the International Team for Implantology (ITI).
