

Implant Case Communication and Timing

Information D&S Needs to Provide Impression Copings

- ❖ Implant Brand
- ❖ Implant Diameter _____mm
- ❖ Size of Healing Abutment Used (Width & Length) _____mm x _____mm
- ❖ What Type of Restoration is Planned?
- ❖ Are Tools Needed?

Please Allow 2 Days for Delivery of Impression Parts

Most Implant Crowns Can Be Completed Within 8-10 Business Days in the Lab.

Some Zirconia Abutments Require Between 4-14 Days for Fabrication, with Additional Time for Crown Fabrication.

- ❖ D&S maintains a large inventory of implant components from all major manufacturers. Most stock parts are available for immediate delivery or shipping.
- ❖ If you need help in any way with your implant case, please contact Steve Daggett, CDT, at D&S.
