Splints	3 Days

## Digital Photos

One of the greatest benefits of technology in recent years has been the ease of taking and transmitting digital photos between the dental office and laboratory. At D&S, we appreciate photos anytime we receive them. Our technicians often use an iPad to view the photos rather than print them to eliminate the chance for distortion and to easily zoom in.

**Please remember to include your office name and patient name on the file, and send it to: [photos@dnsdental.com](mailto:photos@dnsdental.com)**
