# With Pala Mondial i and Pala Mondial you have the freedom to combine aesthetics and functionality at your will.

Pala Mondial i and Pala Mondial are the time tested denture teeth that meet all the requirements of modern dental technology. They are the first lines of denture teeth to feature NanoPearls and guarantee highest abrasion resistance. The large selection of mould designs provides flexibility when choosing teeth for the denture.

Combining CAD/CAM technology and the INCOMP procedure maintains our exemplary form and functional accuracy. You always receive reliable, dependable shade values for all Pala denture teeth and thus an even better adaptation to facings and any residual dentition.

## Anterior Indications

<b>Mondial 6</b>	 Full Denture	 Implant-Borne Denture	 Partial Denture
<b>Mondial 6i</b>	 Implant-Borne Denture	 Partial Denture	 Full Denture

## Posterior Indications

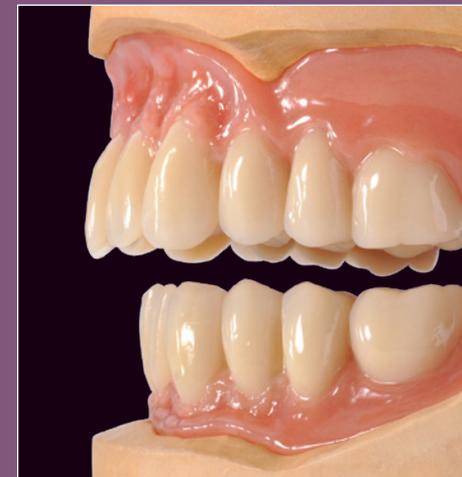

<b>Mondial 8</b>	 Full Denture	 Implant-Borne Denture	 Partial Denture
<b>Mondial 8i</b>	 Partial Denture	 Implant-Borne Denture	 Full Denture
<b>Mondial 8i 5°</b>	 Partial Denture	 Implant-Borne Denture	 Full Denture

## Pala Mondial i 5° – Makes combining function and aesthetics a greater possibility.

The true-to-nature flat cusp angle and lifelike characteristics are tailored to suit implant-borne bridges and geriatric prosthetics.

### The facts

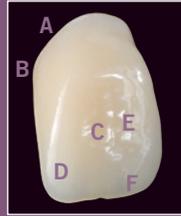

- Perfect coverage of tertiary and implant structures through wider cervical area and high tooth volume
- Better interdental closure and optimal cleanability through bigger proximal surfaces
- Best possible manufacturing - Safe and fast set-up through definite bite index and maximized freedom in the centric relation
- High wear and break resistance due to Nanopearls material technology. The special Pala Mondial i morphology reduces excessive initial wear

# Mondial i

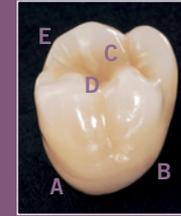

## The facts

- Denture Acrylic with NanoPearls® for high abrasion resistance and lifelike opalescence
- Our teeth can be applied to any set-up concept or for eugnathic and disgnathic jaw relationships and give the technician greater flexibility.
- True to nature moulds identical with natural teeth
- Indistinguishable from residual dentition
- Widened base and increased volume for improved papillae contouring

### Mondial 6i Anteriors

- A Variable cervical area
- B Wide tooth base
- C Lifelike labial surface
- D Layering simulates natural teeth
- E 3D-Multilayering
- F Naturally contoured labial surface

### Mondial 8i Posteriors

- A Variable cervical area
- B Wide tooth base
- C Occlusion design allows lingual and balanced occlusion set-up
- D Width of occlusal surface similar to natural teeth
- E Provision for spot grinding in the incisal edge

The R8, S8, L19 and L24 anteriors have significantly more volume and are a prominent highlight of the extended Pala Product range.

- A widened base, greater use of tooth length and depth through greater volume, improved overall aesthetics, easier masking
- Less concave palatal areas means lower lateral forces and higher stability
- Larger proximal areas mean best possible proximal closing and better overall aesthetics
- Rounded canines give patients a more natural appearance

# Mondial

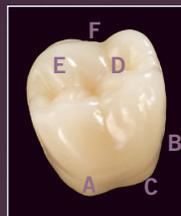

## The facts

- Fast and unambiguous set-up
- Precisely defined centric means simple set-up
- Precise function without time consuming spot grinding
- NanoPearls guarantees high abrasion resistance and durability
- Lifelike and vivid surface structures match the basic tooth form and appear harmonious.
- Widened tooth base and increased volume aid papillae contouring and eliminate dark recesses and vertical edges.

### Mondial Anteriors

- A Variable cervical area
- B Wide tooth base, soft transition
- C Lifelike surface structure
- D Layering + Material = Opalescence

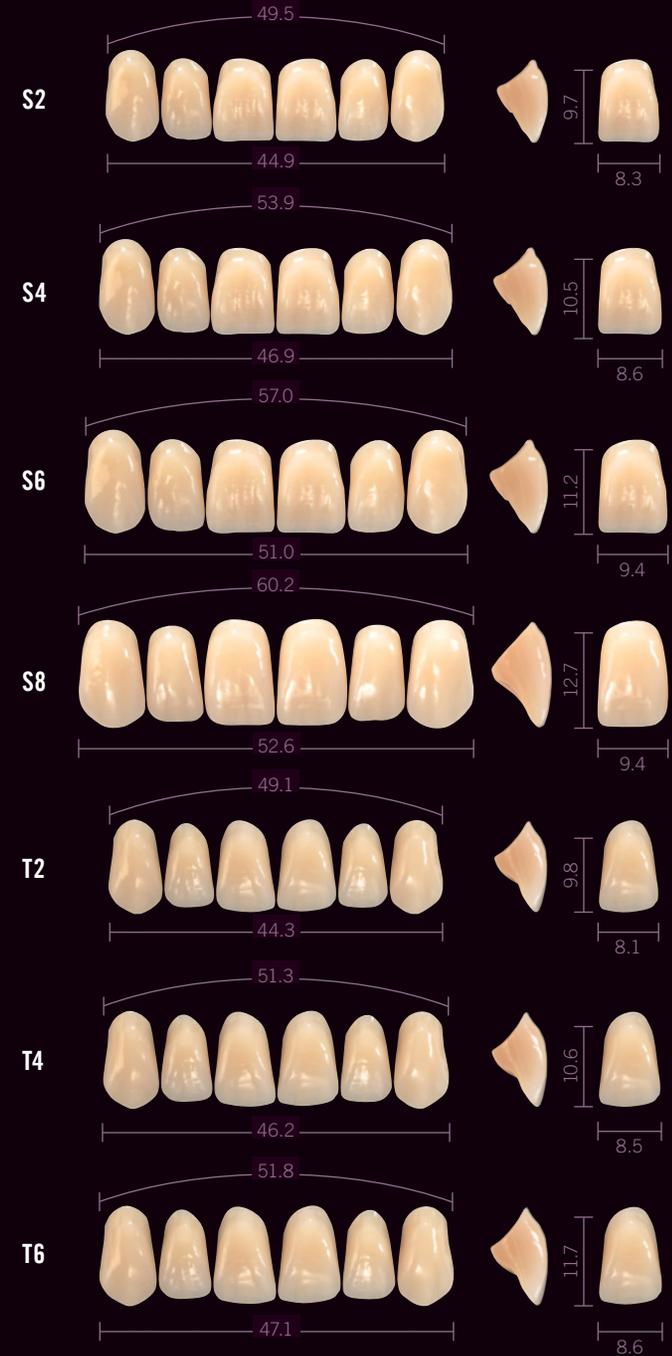

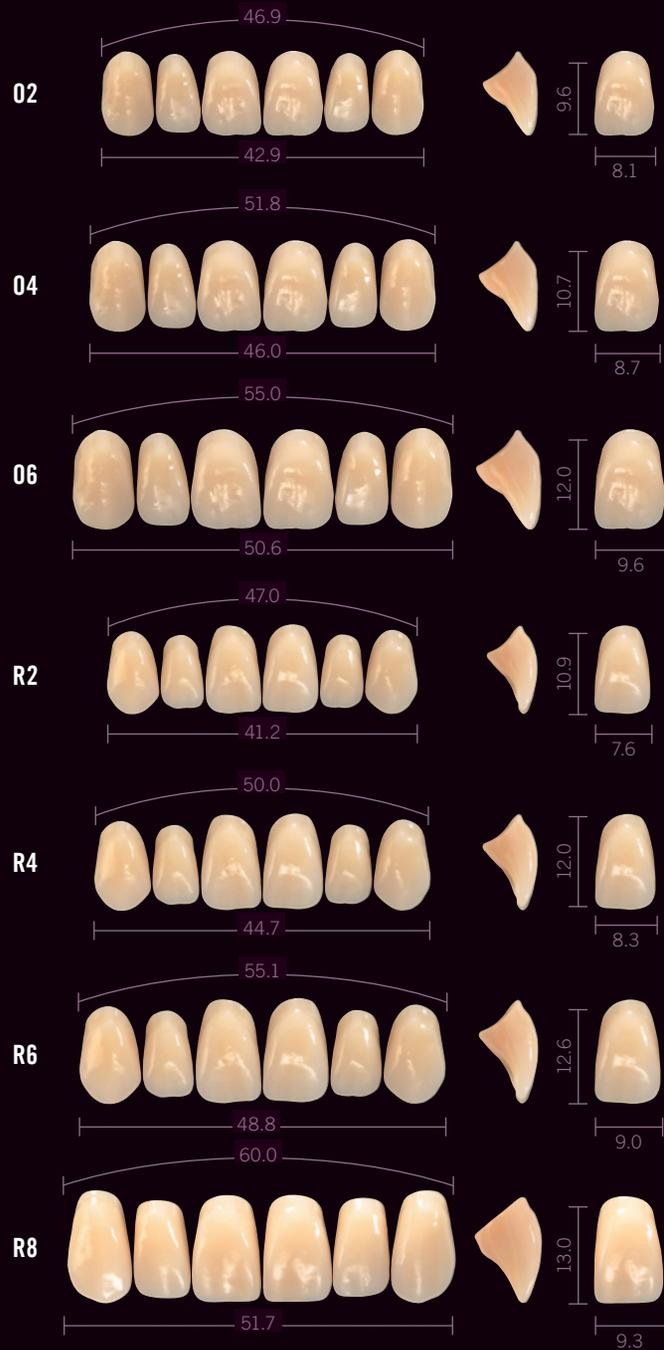

### Mondial Posteriors

- A Variable cervical area
- B Wide tooth base
- C Bilaterally digitalized, symmetrical
- D Functionally improved occlusal design
- E Provision for spot grinding in the incisal edge
- F Lifelike cusp design

\*Kulzer Shades are equivalent to Vita Shades. Mondial® and Mondial i are available in 18 shades (A1–D4, BL2 and BL3).  
Kulzer teeth meet and exceed all the requirements of EN ISO 22112:2006 and ANSI/ADA Specification No. 15-1999.

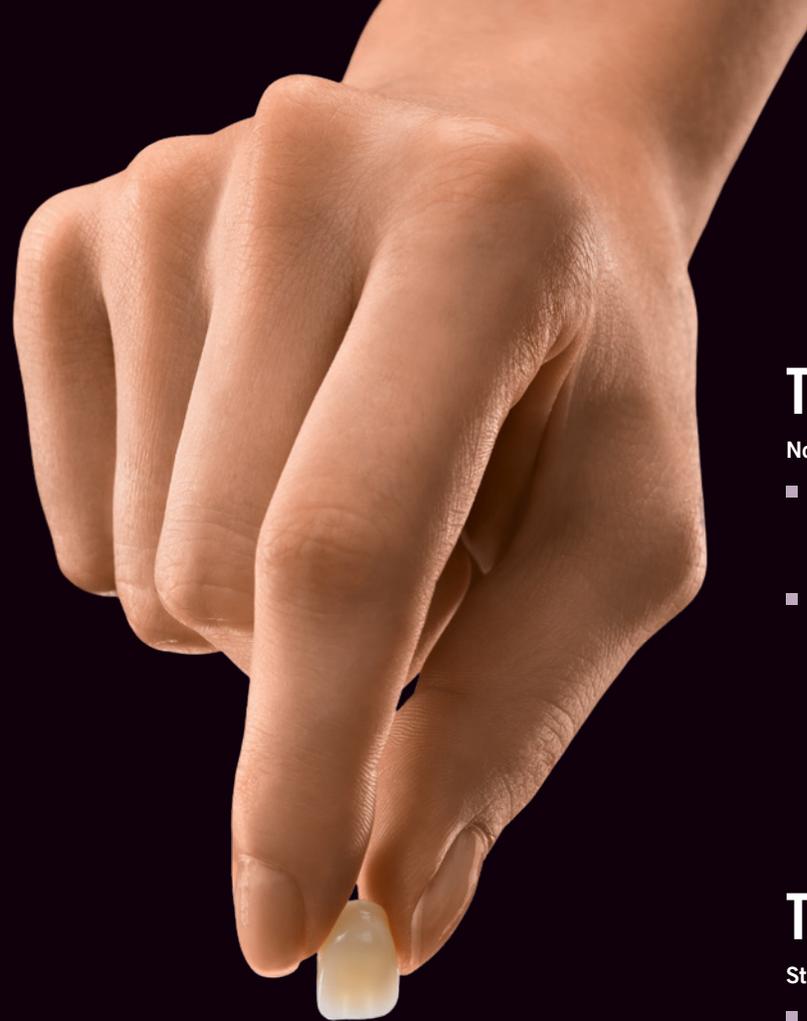

## Pala Mix & Match Shade Guide

Mondial and Mondial i are registered trademarks of Kulzer, GmbH.

Portrait, Bioform, Bioblend, Trublend and IPN are registered trademarks of Dentsply International, Inc.  
BlueLine and Phonares are registered trademarks of Ivoclar Vivadent.

## High Technology:

Absolutely consistent, high quality every time

- Computer aided development and manufacturing (CAD/CAM) for highest precision
- **The result: Guaranteed identical pairs as well as authentic function and size**

## The Patent:

The unrivaled NanoPearls® filler material

- The NanoPearls filler is patented and consists of a unique micro filler combined with a viscoelastic nano filler
- **The result: The highest abrasion resistance and high fracture resistance for a significantly greater lifespan**

## The Characteristics:

No bubbles, no porosity – reliability

- The INCOMP manufacturing process ensures bubble and porous free acrylic teeth with extremely high density
- **The result: Reliable and consistent quality in every tooth**

## The Durability:

Studies demonstrate abrasion resistance

- Independent studies at Heidelberg University and Charité University Medical Centre in Berlin show that abrasion resistance is 50 % higher than in conventional PMMA materials
- **The result: Long-lasting, quality dentures with a 12-year manufacturer's warranty**
